

# SMART DOOR LOCK

Smart Locks

## OVERVIEW

Dongguan Yidian Electronics Co., Ltd. - Ostuyad is a high-tech and innovative enterprise in Dongguan, China, which is a combined company with product research and development design, production, sales, and service into one. We aim to offer economically smart door locks with new designs and technology all the time. The products change our lives and make it more smart and convenient.

Our company values are not just corporate speak to us. They infuse everything we do. They shape our work ethic and guide how we treat each other and our customers. This is where all ideas are respected and valued, by everyone in every position.

Whether you are providing technical support, building a budget, or working through integration with teammates, we value what makes you you and offer each employee daily opportunities to shine. Bring us your best, and we'll provide the tools and environment you need to reach your potential and transform an industry.

Our company has always adhered to the principle of quality first and customer first and has established a good reputation among our customers with reliable product quality and excellent service. Our products are widely used in various fields and have been recognized by customers at home and abroad.

### Main Products

Our products mainly include various smart lock products, like Lezn smart locks, Oubo smart locks, Basics smart locks, hotel locks, etc. We are committed to providing high-quality electronic products and solutions for our customers. Our values are customer innovation-oriented and quality-focused. We strive to create a harmonious and positive work environment for our employees. We believe that through our continuous efforts, our company's products can not only bring profits to our customers but also drive our development.

## Smart Locks

Smart lock is an electromechanical lock that allows you to open and lock your doors with a virtual key of fingerprint, face, code, RFID card, and mobile APP, putting an end to the problem of lost keys and enabling an array of intelligent and useful features. Ostuyad with its cutting-edge biometric technology provides security and convenience for home, office, and your business.
